EDUCATION

Government College of Engineering, Jalgaon

Bachelor of Engineering - DSY Computer Engineering

Jalgaon, India

Aug 2025 – Present

GF's Godavari College of Engineering and Polytechnic

Diploma in Computer Engineering

Jalgaon, India

Sept 2022 – June 2025

TECHNICAL SKILLS

Languages:	Java (Core & Advanced), Python, JavaScript, HTML5, CSS3, SQL, C, C++
Frameworks:	MERN Stack (MongoDB, Express.js, React.js, Node.js), Django, Spring Boot, Java AWT, OpenCV, Android SDK
Tools & Cloud:	AWS (Solutions Architecture), Google Cloud, Git, GitHub, Android Studio, VS Code, PythonAnywhere, Firebase
Competencies:	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), REST API Integration, DBMS, SDLC, Cyber Security

PROFESSIONAL EXPERIENCE

CodeCraft Infotech

Generative AI Engineer & Full Stack Developer

Mangaluru, India

May 2025 – Aug 2025

- Engineered intelligent automation tools using Large Language Models (LLMs), including custom code generators and chatbots.
- Integrated OpenAI APIs into web and mobile applications, utilizing Python and NLP to automate complex business workflows.
- Developed scalable full-stack web applications using React, Node.js, Spring Boot, and MySQL.
- Designed and consumed RESTful APIs to optimize backend logic and ensure responsive frontend performance.

Optifyx Technology

App Development Intern

Delhi, India

June 2025 – July 2025

- Developed high-performance Android applications using Java, Android SDK, and Firebase for real-time database synchronization.
- Enhanced user experience (UI/UX) by implementing responsive layouts and optimizing application speed for diverse devices.

Accenture & Deloitte

Virtual Internships: Software Engineering & Cyber Security

Remote (Australia)

April 2025 – Present

- Analyzed Software Development Lifecycle (SDLC) methodologies and applied scalable architecture principles to project simulations.
- Conducted threat detection simulations and risk assessments to identify security vulnerabilities and recommend protocol improvements.

KEY PROJECTS

Customer Service Portal (Major Project)

[Live Demo: bhushan2710.pythonanywhere.com](https://bhushan2710.pythonanywhere.com)

Python, JavaScript, HTML/CSS, PythonAnywhere

- Developed a hyper-local service marketplace connecting residents with home service providers (electricians, plumbers).
- Engineered the backend using Python and designed a responsive frontend interface for real-time service booking.

SaaS Admin Dashboard

MERN Stack

- Built a multi-role analytics dashboard featuring granular user control management and secure authentication protocols.

AI-Integrated Omni-Channel Banking Kiosk

Python, OpenCV, Java Swing

- Implemented multi-layered security combining AI chatbot interaction and facial authentication (OpenCV) to ensure secure and intelligent user access.
- Developed a desktop-based omni-channel banking kiosk system for KYC processing and secure transactions with real-time backend synchronization.

CERTIFICATIONS & ACHIEVEMENTS

- **Google Cloud Arcade Legend:** Earned 97 points and achieved the Legend tier by completing 40+ hands-on labs in Cloud, AI/ML, and DevOps (July 2025 – Dec 2025).
- **AWS Certified Solutions Architect:** Completed comprehensive knowledge coursework in cloud infrastructure.
- **Technical Certification:** MKCL & YCMOU Certification Course covering Java, Python, and Cyber Security.
